

FOSTER LASER

FST-4060

LASER ENGRAVING CUTTING MACHINE

BUILD GLOBAL HIGH COST PERFORMANCE

FEATURES

FOSTER

Electric lifting platform

Power off continue carving

Red light positioning

Support USB and U-disk

Water protection switch

Air assist retardant system

- 1) Adjustable Speed and Power , Smooth and Precise Engraving and Cutting
- 2) USB Interface , U-flash Disk Supported , Ethernet cable , WIFI (Optional parts)
- 3) Air Assist , Remove heat and combustible gases from the cutting surface
- 4) Embedded Exhaust Fan , Easier install , Safer transport
- 5) Rotary Axis , Engrave any cylindrical object (Optional parts)
- 6) Aluminum Knife Worktable or Honeycomb Worktable .
- 7) Intuitive Control Panel , Set Speed , power and more controls directly from the laser
- 8) Water Cooling and Protection System
- 9) Red light positioning
- 10) Emergency Stop Button
- 11) Larger Size , 400' 600mm working area
- 12) The lifting platform is electric control
- 13) Drag-and-chain transmission line .
- 14) Laser focal length : 5CM

PARAMETERS

FOSTER

Model	FST 4060 laser engraving cutting machine
Working area	600*400mm
Laser type	sealed co2 glass laser tube
Laser power	40W/50W/60W/80W/100W
Engraving speed	0-30000mm/min
Cutting speed	0-3600mm/min
Cutting thickness	0-20mm (depends on materials)
Resolution rate	±0.05mm
Data transfer interface	USB2.0
Working voltage	220v±10% 50hz 110v±10%60hz
Min shaping character	Character:2*2mm letter:1*1mm
Software	RdworksV8/ CorelDraw/AutoCAD
Supported graphic formats	BMP PCX TGA TIF PLT CDR
Working temperature	0-45°C
Working humidity	5%-90%
Rsolution ratio	<4500DPI
Optional parts	Rotary axis,water chiller 3000/5000/5200.
Machine size	≥60W 1400*740*580mm
Machine size	40W/50W 1030x740x580mm
Package	Packing in export wooden cases

DESKTOP STYLE

WITH LEGS FOR EASY TO OPERATE (OPTIONAL)

APPLICATION

FOSTER

Application Materials:

Acrylic, Plexiglas, double color board, ABS board, PVC board, bamboo, MDF, wood, paper, leather, fabric, wool, rubber, resin etc

Application Industry

Advertisement, Garments sampling, Small width tailoring, leather industry, shoemaking, decoration, furniture, packing and printing, model industry, craftwork and gift, etc.

ACRYLIC

GLASS

CERAMICS

FELT

WOOD

WOODCUT

DETAILS

FOSTER

// Laser head

The air pipe has been installed on it. So that dust will not contact the lens. The blown air can cool the lens and cool the material surface. Red light positioning function(Optional).

// Cooling and blowing

Cool and blow air to prevent cuts from burning. Air Assist Remove heat and combustible gases from the cutting surface.

// Aluminum knife worktable (Optional)

To process hard materials like acrylic, wood and so on.

// Honeycomb worktable

- 1) Small holes make sure good supporting performance which is suitable for leather, cloth and other thin soft materials.
- 2) The hole of honeycomb worktable is small , so the small workpiece can be placed on the table surface to be processed.

// Electric Up down worktable

The height of the platform can be adjusted, freely to facilitate products of any thickness.

// Features

1. Adopt advanced laser engraving and cutting control system: Ruida RDC6442 control system, the control panel support different language include Chinese, English, French, Pyccko, Portuguese, Turkish, German, Spanish, Vietnamese, Korean, Italian.

2. Standard RDWorksV8 software: It support 15 different languages, include: Chinese, English, Japanese, French, German, Portuguese, Polish, Spanish, Russian, Korean, Vietnamese, Indonesian, Italian, Turkish, Arabic.

It can compatible with many other software, like Coreldraw, Photoshop, AutoCAD, TAJIMA, etc.

You can use these software to make designs, then import to Rdworks to cut or engrave.

3. RDworks software support files in different format: AI, DXF, PLT, DST, BMP, DSB, EPS, DAT, NC, RDB, GIF, JPG, JPEG, JPE, JFIF, PNG, MNG, ICO, CUR, TIF, TIFF, TGA, PCX, WBMP, WMF, EMF, JBG, J2C, JPC, PGX, RAS, PNM, PGM, PPM, SKA, RAW,

4. Storage: The main board has EMS Memory which enables the user to store more than 100 files.

5. Laser output control: Can regulate the laser power from 1-100% according to different material.

6. Interface: USB2.0 interface support connect to computer by USB cable, it also support offline work.

Wifi Control(optional)

Mobile App(optional)

Multi-language

Free upgrade to RD-6445

// Laser tube

Closed Co2 laser tube, long life, stable power. Installation of reinforcement settings, the laser tube is not easy to collide and cause damage when moving the machine. (EFR, RECI, CDWJ, YONGLI, JOY. Optional)

// X Axis can upgrade to linear guide

Special linear guide rail good stability and long service life low noise and high precision.

// Stepper motor

Strong power, reliable performance, safe and fast, ensure the normal operation of the machine.

// High Speed Stepper Subdivision Driver Control System

Adopt Chinese Top Brand Step Motor and Driving System Numerical timing Simulation quantum control laser power. Little error, repetition high precision.

// Reflector

45° mirror adjustment set. Three-point dimming bolt for easier dimming.

// USA II-VI Lens

Imported USA II-VI Lens, suitable for various environments, and has high precision and high speed.

// Famous brand Belt

The ONK brand belt, wear resistance, good stability, compact structure and low noise.

// Limit switch

Prevent hitting of moving system

// Leading chain

Towline routing and wear-resistant high-strength cables, beautiful and extend the life of the machine.

// Built-in exhaust fan

Built-in Exhaust Fan, Easier install, Safer transport

// Security protection

Ensure the safe operation of the machine and the safe use of electricity.

// Double stop switch

Ensure the safe operation of the machine and the safe use of electricity.

// LED Light

Easy to use, humanized operation

Company and Factory

Liaocheng Foster Laser Science&Technology Co.,Ltd is a professional manufacturer of laser engraving machine, laser cutting machine, laser marking machine for 12years . Since 2004, Foster Laser focused on the development and production of various types of laser engraving/cutting/marking machine with the advanced management, strong research strength and steady globalization strategy, Foster Laser establish more perfect product sales and service system in China and around the world, make the world's brand in laser industry.

Our target is "scientific management, high quality, high reputation and takes continuous development as our policy, regards customers as our center, double win with our customers", and we adhere to our tenet of "take the market demand as the guide, continue to take innovation and make improvement". We will try our best to provide the high quality products and perfect service for clients.

Furthermore, we pay much attention to after-sales service. Good service and good quality is same important for Foster Laser will follow the spirit "Credibility and Integrity", try best to provide customer more super product and better service.

Foster Laser--reliable professional Laser equipment supplier!

Welcome to cooperate with us and achieve win-win!

Office and Team

Our Exhibition

F A Q

Q1. Before sending me an inquiry on our cnc laser, it is better for you to provide me the following information:

- 1)Your metal or non-metal material size. Because in our factory, we have different models according to working area.
- 2)Your materials.
Metal/Acrylic/plywood/MDF?
- 3)You want to engrave or cut?
If cut, could you tell me your cutting thickness? Because different cutting thickness need different laser tube power and laser power supplier.

Q2. If we don't know how to use the machine,can you teach us?

Yes, We will send you manual and guide vedio in English, it can teach you how to operate the machine. If you still can not learn how to use it, we can help you by "Teamviewer" online helpsoftware.Or we can talk by phone, email or skype

Q3.How long is the delivery time?

For standard machines, it would be 3-5 days; For non-standard machines and customized machines according to client's specific requirements, it would be 7 to 10 days.

Q4. Quality Control:

The whole production procedure will be under regular inspection and strict quality control. The complete machine will be tested to make sure they can work very well before being out of factory. Our machine passed CE Certificate, meet European and American standard, were exported to more than 100 Countries.

Q5. Do you arrange shipment for the machines?

Yes, dear esteemed customers, for FOB or CIF price, we will arrange shipment for you. For EXW price, clients need to arrange shipment by themselves or their agents.

Our services

1. warranty for 1 years.
2. Maintenance for whole life.
3. We will provide the consumable parts at an agency price.
4. 24 hours online service, free technical support.
5. Machine has been adjusted before delivery, operation disk is included in the delivery. If there is any other questions, pls kindly tell me.
- 6.We have manual instruction and CD (Guiding Videos) for software Installation, operation and machine's using and maintenance.
