

# SPLIT FIBER LASER MARKING MACHINE

*Foster Laser*

—• **ADVANTAGES** •—

## **> No Consumables, Long lifespan Maintenance Free**

The Fiber laser source has super long lifespan of over 100,000 hours without any maintenance. No need to spare any extra consumer parts at all. Suppose you will work for 8 hours per day, 5 days a week, A fiber laser could work properly for you for more than 8-10 years without extra costs except electricity.

## **> Multi-functional**

It could Mark/Code/Engrave un-removable serials Numbers, batch Numbers, Expiry info, Best Before date, logo & any Characters that you want. It could also mark QR code.

## **> Simple Operation, Easy to use**

Our patent software supports almost all common formats, The operator does not have to understand programming, Just simply set a few parameters and click start.

## **> High Speed Laser Marking**

The laser marking speed is very fast, 3-5 times than the traditional marking machine.

## **> Optional rotary axis for different cylindrical**

Optional rotary axis can be used to mark on different cylindrical, spherical objects. The stepper motor is used for digital control, and the speed can be automatically controlled by computer, which is more convenient, simple, safe and stable.

## PARAMETER

|                           |                                                           |
|---------------------------|-----------------------------------------------------------|
| Laser Type                | Fiber Laser Marking Machine                               |
| Working area              | 110*110/150*150/200*200/300*300(mm)                       |
| Laser power               | 10W/20W/30W/50W                                           |
| Laser wavelength          | 1064nm                                                    |
| Beam quality              | $m^2 < 1.5$                                               |
| Application               | metal and partial nonmetal                                |
| Marking Speed             | 7000mm/second                                             |
| Repeated Precision        | $\pm 0.003\text{mm}$                                      |
| Working voltage           | 220V / or 110V (+-10%)                                    |
| Cooling Mode              | Air Cooling                                               |
| Supported graphic formats | AI, BMP, DST, DWG, DXF, DXP, LAS, PLT                     |
| Controlling software      | EZCAD                                                     |
| Working temperature       | 15°C-45°C                                                 |
| Optional parts            | Rotary Device, Lift platform, other customized Automation |
| Warranty                  | 2 year                                                    |
| Package                   | Plywood                                                   |

## APPLICATION

Fiber laser marking machine can work with most metal marking applications, such as Gold, Silver, Stainless Steel, Brass, Aluminium, Steel, Iron etc. and can also mark on many non-metal materials, such as ABS, Nylon, PES, PVC, Makrolon.

## SPLIT FIBER LASER MARKING MACHINE

Foster Laser

# DETAILS

## »» FIELD LENS

We use famous brand to provides precision laser. Standard 110 x 110mm marking area. Optional 150x150mm , 200 x200mm,300x300mm etc.

## »» GALVO HEAD

Famous brand Sino-galvo, high speed galvanometer scan adopting SCANLAB technology, digital signal, high precision and Speed.

## » LASER SOURCE

We use Chinese famous brand Max laser source. Optional: IPG / JPT / Raycus laser source.

## » JCZ CONTROL BOARD

Ezcad genuine products, user-friendly interface, functional diversity, high stability, high precision. Each board has its own number to ensure that it can be inquired in the original factory. Refuse to fake.

## » THE CONTROL SOFTWARE

1. Powerful editing function.
2. Friendly interface.
3. Easy to use.
4. Support Microsoft Windows XP, VISTA, Win7, Win10 system.
5. Support ai, dxf, dst, plt, bmp, jpg, gif, tga, png, tif and other file formats.
6. Support for TrueType fonts, single line fonts (JSF), SHX fonts, dot matrix fonts (DMF), 1D bar codes and 2D bar codes. Flexible variable text processing, changing text in real time during processing, can directly read and write text files, SQL databases and Excel file.

## » DOUBLE RED LIGHT POINTER

When two red light coincides best focus. Double red light pointer help customers make focus quickly and easily.

## » RED LIGHT PREVIEW

Adopt Red light preview to show the laser path since laser beam is invisible.

## » MARKING RULER AND ROTATING HANDLE

Enables customers to precisely position for fast engraving. Adapting To Different Products Height

**AIR COOLING SYSTEM**  
Three built-in Exhaust Fan

Power supply for galvo head and control board

USB computer interface

Rotary device interface

Foot pedal interface

Power interface

Ground wire

Main board switch

Vibrating mirror switch

Laser switch

## » WORKING PLATFORM

Alumina working platform and imported precise beeline device. Flexibility mesa have multiple screw holes, convenient and custom installation, special fixture industry platform.

## » FOOT SWITCH

It can control the laser on and off. make the operate more convenient.

## » GOGGLES (OPTIONAL)

Can protect eyes from laser wave 1064nm, let the operate more safe.

## » ROTATION AXIS AND PLATFORMS (OPTIONAL)

ROTARY CHUCK

2D / 3D TABLE AND EXTENDED PLATFORM

20W fiber laser marking machine

Honest and good seller. Sent everything on time (even considering the global epidemic at the time of my order). The machine came well packed. Nothing is damaged, everything works, the kit is complete, exactly what we agreed on. So all is well, I am completely satisfied. Thanks!

# Our certificate

Foster Laser Technology Co., Ltd.

# Company and Factory

Liaocheng Foster Laser Science&Technology Co.,Ltd is a professional manufacturer of laser engraving machine,laser cutting machine,laser marking machine for 12years .Since 2004, Foster Laser focused on the development and production of various types of laser engraving/cutting/marking machine with the advanced management,strong research strength and steady globalization strategy, Foster Laser establish more perfect product sales and service system in China and around the world, make the world's brand in laser industry.

Our target is "scientific management, high quality, high reputation and takes continuous development as our policy, regards customers as our center, double win with our customers", and we adhere to our tenet of "take the market demand as the guide, continue to take innovation and make improvement". We will try our best to provide the high quality products and perfect service for clients.

Furthermore,we pay much attention to after-sales service. Good service and good quality is same important for Foster Laser will follow the spirit "Credibility and Integrity", try best to provide customer more super product and better service.

Foster Laser--reliable professional Laser equipment supplier!

Welcome to cooperate with us and achieve win-win!

# Our Exhibition

# F A Q

## **Q1: I know nothing about this machine, what kind of machine should I choose?**

You don't have to be a laser Expert, let us be the professional one who guide you to choose the right solution.

The only thing you need to do is to tell us what you want to do, Our professional sales will give you proper recommendations based just on what you need.

## **Q2: When I got this machine, but I don't know how to use it. What should I do?**

Well. First of all, our machine is designed for easy use. You will know how to use it when you have it as long as you can use a computer. Besides, we will also provide English users manual and installation and operating video.

If you still have questions, you are welcomed to contact with us anytime for a online free guiding. Our Professional after-sales engineers are always ready to help.

## **Q3: If some problems happen to this machine during warranty period, what should I do?**

We will supply free parts if your machine is still on warranty. While we also supply free life long after-sales services too. So any questions, please don't hesitate to let us know, we are always ready to help.

Your satisfaction is always our greatest pursuit.

## **Q4: You are warmly welcomed to send us inquiry, in order to recommend the most proper laser solution for you, we are expect to know the following 3 items:**

- 1) Which material you are expect for laser to mark/code?
- 2) What's the specific character that you are going to mark/code?
- 3) Do you have any speed requirements? Or what's your current production line feeding speed, so we could check if we could match it.

# Our services

- 
- A woman in a blue business suit and headset is working on a laptop. The background is a light blue gradient with diagonal lines.
- ♥ 1. warranty for 2 years.
  - ♥ 2. Maintenance for whole life.
  - ♥ 3. We will provide the consumable parts at an agency price.
  - ♥ 4. 24 hours online service, free technical support.
  - ♥ 5. Machine has been adjusted before delivery, operation disk is included in the delivery. If there is any other questions, pls kindly tell me.
  - ♥ 6. We have manual instruction and U drive (Guiding Videos) for software Installation, operation and machine's using and maintenance.
